

Huawei is a leading global information and communications technology (ICT) solutions provider. Our aim is to enrich life and improve efficiency through a better connected world, acting as a responsible corporate citizen, innovative enabler for the information society, and collaborative contributor to the industry. Driven by customer-centric innovation and open partnerships, Huawei has established an end-to-end ICT solutions portfolio that gives customers competitive advantages in network and enterprise networks, devices and cloud computing. Huawei's 170,000 employees worldwide are committed to creating maximum value for network operators, enterprises and consumers. Our consumer ICT solutions, products and services are used in more than 170 countries and regions, serving over one-third of the world's population. Founded in 1987, Huawei is a private company fully owned by its employees.

About PDES Works

PDES Works is the market leader in comprehensive, secure workload management for high performance computing (HPC) and cloud environments. This market leading workload management suite allows HPC users to simplify their environment while optimizing system utilization, improving application performance, and improving ROI on hardware and software investments. PDES Works is the preferred solution for many of the planet's largest, most complex clusters and supercomputers - and is the choice for smaller organizations needing HPC solutions that are easy to adopt and use. www.pdesworks.com

About Altair

Founded in 1981, Altair is focused on the development and application of simulation technology to suppress and optimize design, processes and solutions for improved business performance.
