

## Altair Announces 2020 Global Technology Conference to Explore “The Future Of...”

September 8, 2020

**Thought leaders from Affectiva, Columbia University, and Zyrobotics among featured keynotes**

TROY, Mich., Sept. 08, 2020 (GLOBE NEWSWIRE) -- [Altair](#) (Nasdaq: ALTR), a global technology company providing solutions in data analytics, product development, and high-performance computing (HPC), will hold its [2020 Global Altair Technology Conference](#) (ATC) virtually October 5-7. The ATC brings together the brightest minds around the world to share breakthrough digital discoveries and industry-first innovations, all while continuing to explore solutions for a smarter, more connected world.

Altair Technology Conference 2020, October 5-7. Register free: <https://atc2020.virtual.altair.com>

“Since its inception 12 years ago, the ATC has become the premier learning forum for exploring ideas and solutions to drive faster decisions,” said James Scapa, founder and chief executive officer of Altair. “We welcome industry leaders, executives, analysts, investors, engineers, scientists, developers, and academia to join us and be inspired as we collectively work to shape the future.”

The free three-day conference will explore “The Future of...” theme with thought provoking and one-of-a-kind keynotes including:

- “The Future of AI is Empathetic” – Rana el Kaliouby, CEO and co-founder of [Affectiva](#) and author of “Girl Decoded: A Scientist’s Quest to Reclaim Our Humanity by Bringing Emotional Intelligence to Technology”
- “The Future of Robotics” – Ayanna Howard, founder and CTO of [Zyrobotics](#)
- “The Future of Engineering Education” – Mary Boyce, dean of the Fu Foundation School of Engineering and Applied Science, [Columbia University](#)
- “The Future of Engineering Technology” – professor Karen Willcox, director of the [Oden Institute for Computational Engineering and Sciences](#), University of Texas at Austin
- “The Future of Deep Learning” – Hod Lipson, professor of mechanical engineering and data science, [Columbia University](#)

The ATC will also showcase critical trends impacting our world – including healthcare, mobility, artificial intelligence, and the augmented workforce – and will include an entire day dedicated to inspiring students and start-ups.
